## PROFESSIONAL SUMMARY

Full Stack Developer who has shipped two live taxi platforms for Irish clients through internship and contract roles, with freelance web development experience since 2022. Specialises in Laravel, PHP, Node.js, and React.js, with hands-on experience in REST APIs, PostgreSQL and MySQL, payment integrations (Stripe, SumUp), real-time WebSockets, and production VPS deployment.

## PROFESSIONAL EXPERIENCE

### Digitize LLC

Feb 2026 – Jun 2026

Laravel Developer (Intern to Contract)

Remote, Pakistan

- Worked on the backend of FleetMove (fleet-move.com), a live ride-hailing and fleet platform for Fivestar Galway Taxis built on a 16-module Laravel 12 architecture.
- Built REST APIs for FleetMove customer and driver apps with Laravel Passport authentication and RBAC for 3 user roles, and added real-time trip updates and chat via WebSockets (Laravel Reverb) and FCM push notifications.
- Built Daytrip (daytrip.ie), a taxi booking platform with a Laravel 13 REST API and React 19 SPA, featuring server-side fare calculation, scheduled bookings, and an admin panel.
- Integrated Stripe (PaymentIntents, signed webhooks) and SumUp payments, wrote PHPUnit tests, and deployed Daytrip to a Contabo VPS (Ubuntu, OpenLiteSpeed, PostgreSQL).
- Promoted from Intern to Contract Developer after a 3-month internship.

### Axoon Solutions

Jun 2025 – Aug 2025

Backend Developer (Intern / Contract)

Remote, Pakistan

- Built and maintained REST APIs with Laravel, Node.js, and Express.js, covering request validation, error handling, and API contracts for client applications.
- Reduced API response times by approximately 28% through query optimisation and the removal of redundant database calls.

### Freelance Web Developer

2022 – 2026

Client: ODDCO Studios (oddcostudios.com)

Remote

- Delivered and maintained a responsive, SEO-optimised marketing website for a 2D animation studio (HTML5, CSS3, JavaScript, PHP).

## PROJECTS

### OnlyMetric (Happy Hour) | Restaurant Operations SaaS

2025

Laravel 12, React 19, PostgreSQL, PHPUnit, Laravel Cloud | Live: happy-hour-main-u4wqug.laravel.cloud

- Built a platform for purchasing, recipe costing, inventory, POS, kitchen display, and staffing across 20+ screens and 15 API resource groups.
- Implemented AI-powered invoice OCR with GST-aware validation, and built a provider layer supporting 5 LLM providers (OpenAI, Claude, Gemini, Ollama, Z.ai).
- Reduced report generation time by approximately 25% through query restructuring.

### SZABOT | AI Academic Assistant (Final Year Project)

2025

Python, RAG, Google Gemini API, JavaScript | github.com/WasiullahSahito

- Built a RAG assistant on Google Gemini that answers student timetable queries in real time.
- Wrote a Python pipeline that parses Excel and PDF timetables and routes queries across 3 categories using intent detection; built an admin dashboard for uploads.
