PROFESSIONAL SUMMARY

Software Engineer and Full Stack Developer specializing in Laravel and PHP backend development, with professional experience in Node.js, Express.js, and React.js. Built REST APIs and backend features for two live taxi platforms for Irish clients, including Laravel Passport authentication, role-based access control (RBAC), real-time WebSockets, and Stripe and SumUp payment integrations. Deployed to production on a Linux VPS with PostgreSQL. Experienced in building AI-powered features with LLM APIs, OCR, and retrieval-augmented generation (RAG). Freelance web developer since 2022.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python, SQL

Backend: Laravel, Node.js, Express.js, REST API Design, Eloquent ORM, Laravel Passport, Laravel Sanctum, JWT, Role-Based Access Control (RBAC), Laravel Reverb, WebSockets, PHPUnit

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, Database Design, Query Optimization

APIs & Integrations: Stripe, SumUp, Webhooks, Firebase Cloud Messaging (FCM), Google Maps API, SMTP

DevOps & Tools: Git, GitHub, Linux (Ubuntu), VPS Deployment (Contabo, CyberPanel, OpenLiteSpeed), Laravel Cloud, Vercel, Postman

AI / LLM: OpenAI API, Anthropic Claude API, Google Gemini API, Retrieval-Augmented Generation (RAG), Optical Character Recognition (OCR), Prompt Engineering, Claude Code, GitHub Copilot

Familiar With: AWS, Docker, GraphQL, FastAPI, Flask, n8n

PROFESSIONAL EXPERIENCE

Laravel Developer (Intern)

Digitize LLC | Remote, Pakistan | Feb 2026 – Jun 2026

- Developed backend features for FleetMove (fleet-move.com), a live ride-hailing and fleet platform for Fivestar Galway Taxis, built on a 16-module Laravel 12 architecture.
- Built REST APIs for the FleetMove customer and driver apps, securing endpoints with Laravel Passport authentication and role-based access control (RBAC) across 3 user roles.
- Implemented real-time trip updates and chat using WebSockets (Laravel Reverb), and push notifications via Firebase Cloud Messaging (FCM).
- Built Daytrip (daytrip.ie), a taxi booking platform with a Laravel 13 REST API and a React 19 single-page application (SPA), featuring server-side fare calculation, scheduled bookings, and an admin panel.
- Integrated Stripe (PaymentIntents, signed webhooks) and SumUp payment processing, and wrote PHPUnit tests.
- Deployed Daytrip to production on a Contabo VPS running Ubuntu Linux, OpenLiteSpeed, and PostgreSQL.

Backend Developer (Intern)

Axoon Solutions | Remote, Pakistan | Jun 2025 – Aug 2025

- Built and maintained REST APIs for client applications using Laravel, Node.js, and Express.js, with request validation, error handling, and defined API contracts.
- Reduced API response times by approximately 28% by optimizing database queries and eliminating redundant database calls.

Freelance Web Developer

Self-Employed | Remote | 2022 – 2026

- Client: ODDCO Studios (oddcostudios.com). Delivered and maintained a responsive, SEO-optimized marketing website for a 2D animation studio using HTML5, CSS3, JavaScript, and PHP.

SELECTED PROJECTS

OnlyMetric (Happy Hour) | Restaurant Operations SaaS | 2025

Tech Stack: Laravel 12, React 19, PostgreSQL, PHPUnit, Laravel Cloud | [Live Demo](#)

- Built a restaurant operations SaaS platform covering purchasing, recipe costing, inventory, point of sale (POS), kitchen display, and staffing across 20+ screens and 15 API resource groups.
- Implemented AI-powered invoice OCR with GST-aware validation.
- Built an LLM provider layer supporting 5 providers: OpenAI, Anthropic Claude, Google Gemini, Ollama, and Z.ai.
- Reduced report generation time by approximately 25% by restructuring database queries.

SZABOT | AI Academic Assistant (Final Year Project) | 2025

Tech Stack: Python, RAG, Google Gemini API, JavaScript | github.com/WasiullahSahito

- Built a retrieval-augmented generation (RAG) assistant on the Google Gemini API that answers student timetable queries in real time.
- Developed a Python pipeline that parses Excel and PDF timetables and routes queries across 3 categories using intent detection.
- Built an admin dashboard for timetable uploads.

EDUCATION

Bachelor of Computer Science

SZABIST University | Karachi, Pakistan | Graduated June 2026
